

Maternity PowerPlans – Overview

A *PowerPlan* is a set of orders that are grouped together to communicate care for a patient. An order can be related to:

- Patient care activity (IV insertion, vital signs etc.)
- Plans of care with identified clinical/functional outcomes
- Consultations to other clinicians
- Investigations including pathology, radiology and procedural (e.g. ECG)
- Medications, intravenous fluids, Blood products and nutritional supplements

All *PowerPlans* are Evidence Based and reflect current policies and procedures (these can be localised / State or National Standards).

The icon for a *PowerPlan* is

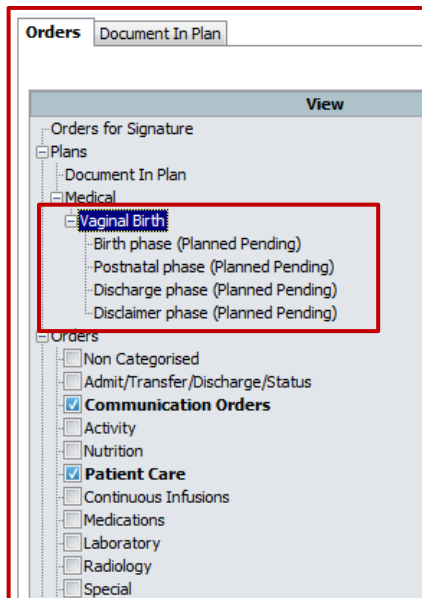

PowerPlans are traditionally Advanced functionality. The Townsville Hospital is currently able to access a limited number of Maternity-related *PowerPlans* without the Medications component.

Once Townsville gets Advanced functionality, the full range of *PowerPlans* will be available.

Ordering a PowerPlan

1. Select *Orders* from the menu. Click *+Add* and search for the required *PowerPlan*, e.g. *Vaginal Birth PowerPlan*.
2. Select  **Vaginal Birth** and click done to close the search screen.
3. Note the *Vaginal Birth PowerPlan* appears in the *Orders Navigation panel*.

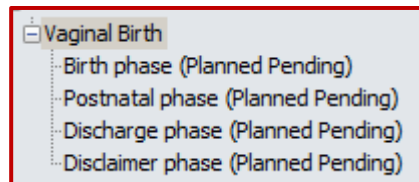

The screenshot shows the 'Orders' navigation panel with a search filter 'Document In Plan'. Under the 'Plans' section, 'Vaginal Birth' is selected and expanded, showing four sub-phases: 'Birth phase (Planned Pending)', 'Postnatal phase (Planned Pending)', 'Discharge phase (Planned Pending)', and 'Disclaimer phase (Planned Pending)'. Below this, the 'Communication Orders' and 'Patient Care' sections are visible, with 'Patient Care' checked.

PowerPlan Phases

PowerPlan can be single phase or multi-phase:

Single Phase – There is only one option to select within the *PowerPlan*.

Multi-phase – There are several phases to the *PowerPlan* and the clinician must select the most clinically appropriate phase/s.

Multi-phase Power Plan

PowerPlan icons

- The *Notifications*  icon provides a hyperlink to evidence based information, e.g. state-wide guidelines.
- The *Pushpin/yellow note*  icon indicates a comment or persistent note.
- The *Clipboard*  icon represents an order.
- The *Reference Text*  icon opens a new window containing relevant reference text.
- The *Dose Calculator*  icon Indicates the calculator will be invoked for this order
- The *Pharmacy Verification*  icon indicates that the order is yet to be verified by a pharmacist. This icon will only appear once the *PowerPlan* is initiated.

Orders within a PowerPlan

Some orders within *PowerPlans* will be selected by default, as per below:

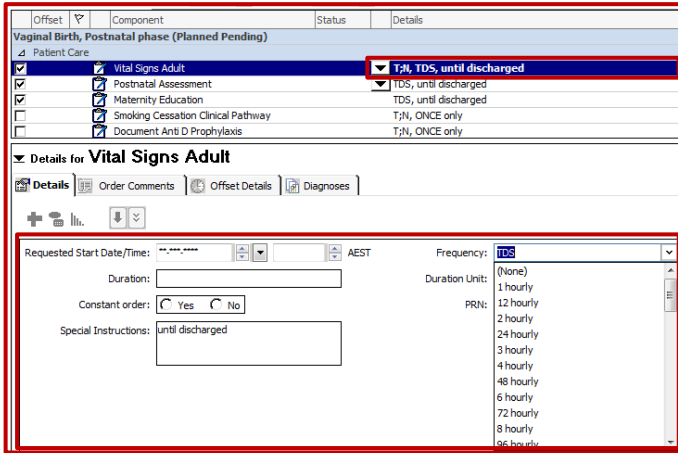

Vaginal Birth, Postnatal phase (Planned Pending)			
Patient Care			
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Vital Signs Adult	TDS, until discharged
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Postnatal Assessment	TDS, until discharged
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Maternity Education	TDS, until discharged
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Smoking Cessation Clinical Pathway	T;N, ONCE only
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Document Anti D Prophylaxis	T;N, ONCE only

These orders can be deselected or selected as required.

Select the appropriate *Order Sentence* from the *Details* dropdown menu.

Vaginal Birth, Postnatal phase (Planned Pending)			
Patient Care			
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Vital Signs Adult	TDS, until discharged
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Postnatal Assessment	TDS, until discharged
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Maternity Education	4 hourly, until reviewed
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Smoking Cessation Clinical Pathway	T;N, ONCE only

If the required *Order Sentence* is not available in the dropdown list, double-click on the details line to open the full *Order Details* section.

i If the *Ordering Clinician* is not a Medical Officer, they may be required to enter the Admitting Consultant's name and communication method.

Only choose *Protocol / Nurse Initiated* for orders that are within your approved scope of practice and a Unit Based Protocol supports this order

Adding Orders to a PowerPlan

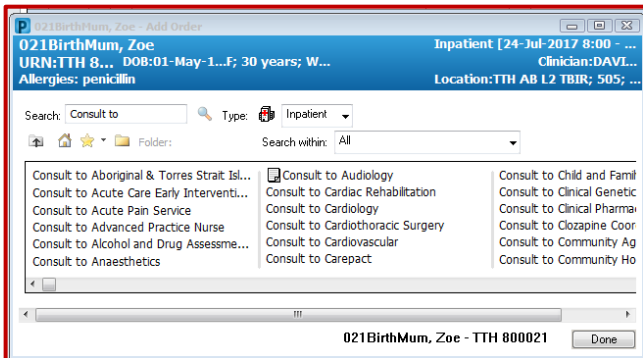

It is possible to add orders to a *PowerPlan*. Always use the *Add to Phase* button.

Using the Add To Phase Button

1. Whilst in your *PowerPlan*, Click the *Add To Phase* button

2. Click the relevant order type (e.g *Add Order*) the search for the order that you wish to add to your *PowerPlan*.

The order will now appear in your *PowerPlan*.

i Do not Right-click and copy orders within a *PowerPlan*. The copied order does not populate in the *PowerPlan*, and causes duplicate orders to be placed in error.

Only use the *Add to Phase* function to add orders to a *PowerPlan*.

i Once you have modified the *PowerPlan*, you can click the *Save as my Favourite* button at the bottom of the *PowerPlan*, which will save your order selection/s, and any orders that you have added to the *PowerPlan*. Save as My Favorite

Signing the PowerPlan

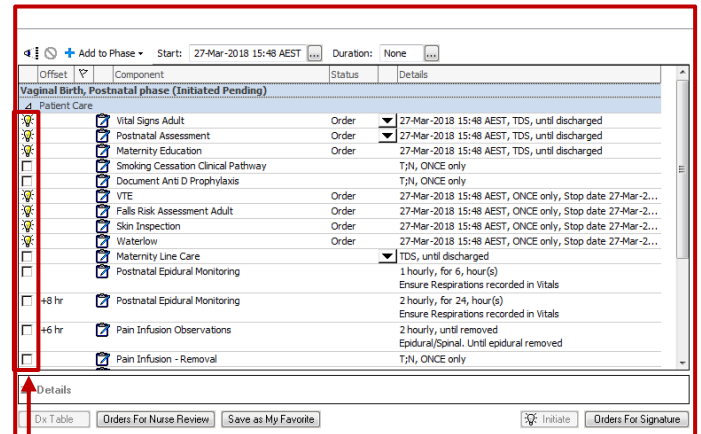

Once you have selected the relevant orders, you must sign the *PowerPlan*.

PowerPlan have two buttons at the bottom – *Initiate* and *Sign*. You can use these buttons together, or separately.

Initiate and Sign – If you select these buttons together, you will initiate the *PowerPlan* immediately once the orders have been signed.

1. Initiate the *PowerPlan*

Any selected Orders within an Initiated plan will have a lightbulb

2. Click *Orders for Signature* to save.

Sign only – Once you have selected the orders within the **PowerPlan**, you can click **Sign** to sign the orders.

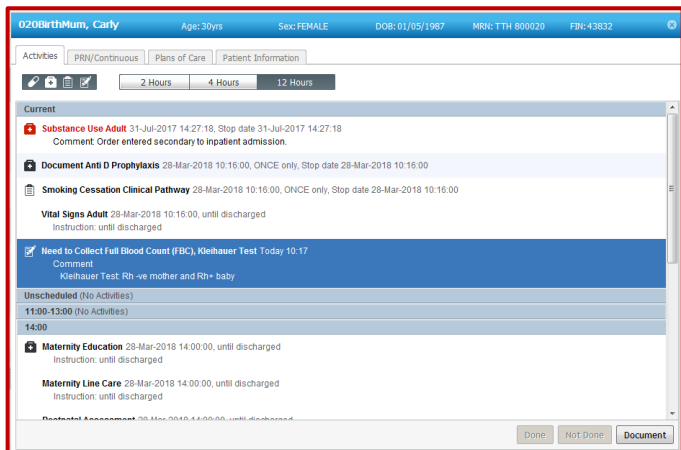

The **PowerPlan** will then be available to be initiated at the appropriate time.

If you are ordering the **PowerPlan** in advance:

1. Click **Orders for Signature**

Then you or a colleague can **Initiate** later.

Once the relevant **PowerPlan Phase/s** have been **Signed** and **Initiated** the tasks will appear on **Care Compass** as scheduled.

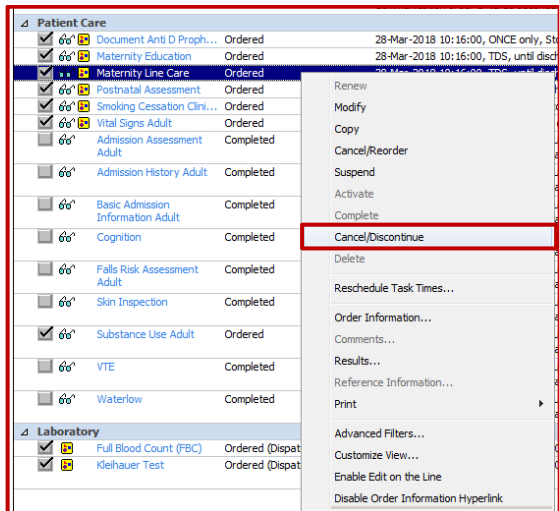

Discontinuing PowerPlan items

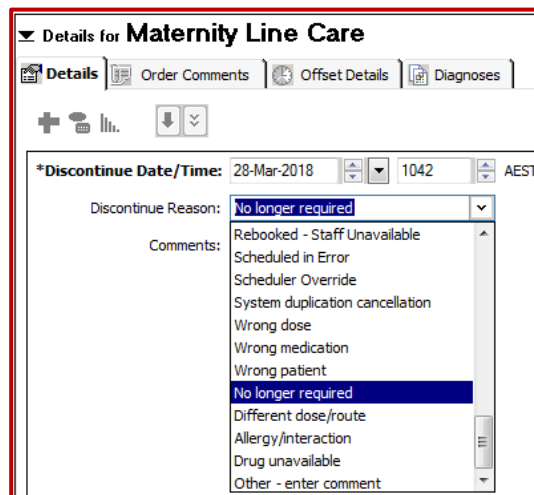

It may be clinically appropriate to discontinue individual **PowerPlan** orders, a **PowerPlan Phase** or the whole **PowerPlan**.

Discontinuing Individual PowerPlan orders

1. Navigate to the **Orders Summary** screen and identify the **Order/s** to be discontinued
2. Right-click over the order and select **Cancel/Discontinue**

3. Select the appropriate **Discontinue Reason** from the dropdown menu and add a **Comment** if required.

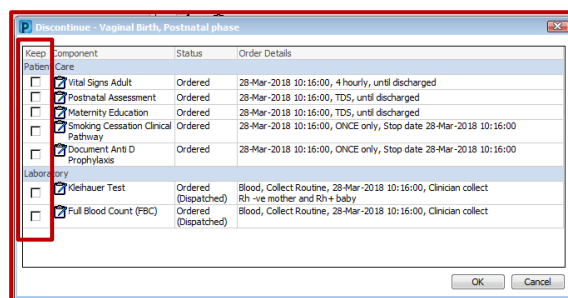

4. Click **Orders for Signature** to review, then click **Sign** to confirm the discontinuation.

Discontinuing a PowerPlan Phase

1. Navigate to the **Orders Summary** screen and identify the **PowerPlan Phase** to be discontinued
2. Right-click over the **Phase** and select **Discontinue**

3. Review the **Phase Orders** being discontinued and tick the **Keep** checkbox for any **Orders** to be retained. Click **OK** to proceed.

4. Some **Orders** (e.g. Pathology Orders) may require a **Discontinue Reason** before proceeding. These **Orders** will be marked with an icon of a white cross in a blue circle

Vaginal Birth, Postnatal phase (Discontinued Pending)
